

EMIS Change 24-40: Expand course grade collection
Public Comment open from April 11 through May 10

EMIS Change 24-40

This change updates the reporting guidance for this record to encourage the reporting of grades for additional courses. The expanded guidance is to allow for more complete information in the Early Warning System.

SECTION 4.8: STUDENT COURSE GRADE (FR) RECORD

Scope of Data Included

Although not required, districts may include grades for courses that do not earn high school graduation credit. Such courses would be reported using the same options and rules as those for reporting credit-earning courses, with the exception that reporting a grade with a status of “F” does not indicate that credit was awarded based on that grade. The amount of credit associated with any grade is determined based on the credit values reported on the Student Course (GN) and Course Master (CN) Records.

[Note that when reported, grades for middle school \(grades 6-8\) math and English courses will be utilized in the Early Warning System. We therefore encourage the reporting of grades for these courses.](#)
